Below, we rank the teams from best to worst concerning the certainty of victory this week. We're very confident that the top teams will win. We're not so confident that the bottom teams will win.

ALERT! We just updated our [Strength of Schedule Grid](#) on 11/30 to point out strong and weak schedules for the remainder of the 2009 season, so make sure you download it, print it, and keep it by your side to consult for every decision you make. Personally, I like to take a highlighter and highlight out the column for the current week each Monday as to easier see the remaining good and bad stretches.
